### Adhesive Performance

S700 is a reinforced permanent acrylic based adhesive with very good initial tack and adhesion to a wide range of substrates.

### Applications and use

Its multi-layer structure enables the product to replace ordinary films and laminates with less than half the thickness, it is therefore considered to be the strongest HDPE substrate worldwide. Due to the closed structure the product is often used as barrier film as well.

### Conversion & printing

The crosslaminated structure offers the ideal pattern for a high perforation resistance. Nevertheless the product can easily be die cut, stapled or perforated using the recommended tooling.

### Shelf life

Two years under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
