

### Material

A matt, white, impact modified PVC film with a print receptive layer on both sides. Ideal for tag applications requiring rigidity and TT print.

|                   |                         |                         |
|-------------------|-------------------------|-------------------------|
| Basis Weight      | 335 g/m <sup>2</sup>    | ISO 536                 |
| Caliper           | 250 µm                  | ISO 534                 |
| Tensile strength  | 47-53 N/mm <sup>2</sup> | ISO 527-3               |
| VICAT soft. Temp. | 78 °C                   | ISO 306                 |
| Cold Resistance   | -18 °C                  | ISO 1974                |
| Shrinkage         | < 5 %                   | at 140°C and 10 minutes |

### Applications and use

This product is ideal for applications such as self-tie loop around tags, loyalty and membership cards and garment hang tags.

### Conversion & printing

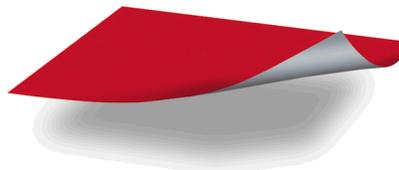

The product can be converted by all conventional roll conversion technologies including: Letterpress, Offset, Screenprinting, UV flexo and Water-based flexo. This product is also suitable for variable information printing in: Thermal Transfer printing systems. **IMPORTANT NOTES:** Due to its matt and relatively rough surface Thermal Transfer printing is possible, but it is recommended to set up the printer to low printing speeds.

### Shelf life

One year under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
