

### Facestock

Polyester film 50 matt silver with top coating for conventional and TT printing, and special void effect.

Basis Weight	81 g/m <sup>2</sup>	ISO 536
Caliper	61 µm	ISO 534

### Adhesive

A permanent, acrylic based adhesive.

### Liner

BG45 white, a supercalendered glassine paper.

Basis Weight	73 g/m <sup>2</sup>	ISO 536
Caliper	62 µm	ISO 534
Transparency	50 %	DIN 53147

### Laminate

Total Caliper	139 µm±10%	ISO 534
---------------	------------	---------

### Performance data

Initial Tack	11 N/25mm	FTM 9 Glass
Peel Adhesion 90°	9 N/25mm	FTM 2 St.St.
Min. Application Temp.	5 °C	
Service temperature	-40°C to 90°C	

### Adhesive Performance

The adhesive is perfectly suitable for uses that need a good resistance to UV, fats or solvents. Good general adhesion performance on a wide range of substrates.

### Applications and use

Once applied to the substrate on removal, an irreversible and dry “void” footprint message will detach itself from the face film. Labels which have been removed cannot be reapplied since repositioning will leave visible proof that tampering has taken place. On paper and cardboard, labels should not be taken away before 24h.

### Conversion & printing

Excellent conversion characteristics on flatbed and rotary presses.

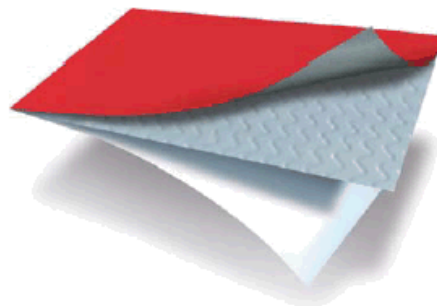

### Shelf life

One year under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
