

### Material

A matt finished metallic polyester film. The smooth surface is covered with a topcoat for excellent ink anchorage.

Basis Weight	65 g/m <sup>2</sup>	ISO 536
Caliper	50 µm	ISO 534

### Applications and use

The main area of application is the labeling of industrial products. Nameplates and logistics labels are typical examples. This product is distinguished by its high chemical resistance. For special requirements we strongly recommend application tests.

### Conversion & printing

This product was specially developed for industrial labels and thermal transfer applications. Thanks to the special surface coating, excellent results can be achieved with thermal transfer printers equipped with conventional or near-edge print heads using resin ribbons. In addition to thermal transfer printing the product can also be printed by all conventional roll label techniques.

### Shelf life

One year under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
