Adhesive Performance

S700 is a reinforced permanent acrylic based adhesive with very good initial tack and adhesion to a wide range of substrates.

Applications and use

Once applied to the substrate on removal, an irreversible and dry "void" footprint message will detach itself from the face film. Labels which have been removed cannot be reapplied since repositioning will leave visible proof that tampering has taken place. On paper and cardboard, labels should not be taken away before 24h.

Conversion & printing

Excellent conversion characteristics on flatbed and rotary presses.

Shelf life

One year under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
