Adhesive Performance

S692N is a clear permanent adhesive featuring excellent UV resistance and weatherability together with good adhesion performance, even on apolar substrates.

Applications and use

Holographic labels are widely used in retail for promotional and decorative purposes. This product is suitable for the use in the beverage, spirits and food industries. Holographic labels are also suitable for wine applications.

Conversion & printing

The material can be printed by UV flexo and offset. Letter press printing is not recommended. Direct and prolonged contact with water and aggressive solvents should be avoided. The product is coated for printing. The pattern range is made by cliches of different dimensions, therefore some lines can appear on the hologram.

Special Approvals

S692N complies with European food regulation 1935/2004/EC, with the German Recommendation (BfR) XIV and with FDA § 175.105. It also meets the demands of the limit values laid down in 10/2011/EU. In accordance with the requirements of relevant EU food regulations, the adhesive S692N may safely stand in direct contact with dry, moist and fatty foodstuffs which have a reduction factor of at least 3 according to the Commission Regulation (EU) No 10/2011.

Shelf life

Two years under storage conditions as defined by FINAT (20-25°C; 40-50%RH)
